

Splat the Frog

An original game created just for you
by KinderPrintables.com

Directions: Print off 2 sets of each page of cards on colored cardstock and laminate for durability. Cut out cards. Shuffle the cards and divide them up evenly between 2 players. Cards will be placed face down. Kids will take turns flipping over a card. The object is to be the first person to slap the frog when the frog cards are turned over. To make it more difficult or challenging, only print off 1 set of frog cards. The child that slaps the frog card first gets the pile of cards that had been turned over.

These pieces are provided in black and white. You may wish to have the children color a set of cards for home use.
