Winter Wonderland :: Snowflake Measuring

KinderPrintables.com

Directions:

Print off a set of numbered snowflakes for each child. Cut out, and tape together in sequential order. Have the children practice measuring using their snowflake measuring stick. Example: How many snowflakes measure the length of their desk? How many snowflakes measure the length or width of their own feet....etc.

There is a set of blank snowflakes you can add your own numbers to in case you want to make larger measuring sticks.
